<b>IN USE</b>	72" x 33" x 51" [L/W/H] (1.8 m x .83 m x 1.29 m)
<b>FLOOR SPACE</b>	12 square feet [1.1 square meters]
<b>UNIT WEIGHT</b>	88 lbs (40 kg)
<b>CONSTRUCTION</b>	Steel with steel reinforced extruded aluminum rails
<b>CAPACITY</b>	Maximum user weight capacity of 400 lbs [181 kg]
<b>GLIDEBOARD RANGE OF MOTION</b>	31 inches [787 mm]
<b>WARRANTY</b>	Frame: 5 years Upholstery: 90 days Rubber & Moving Parts: 1 year

The ELEVATE Adjustable Core™ strengthens the abdominals while engaging the entire core musculature. Offering unparalleled versatility for an abdominal machine, the Adjustable Core is a plank facilitator that allows for two primary movements, the Dynamic Plank and the SCRUNCH®. Simple, intuitive, and accommodating all fitness levels, the ELEVATE Adjustable Core helps enhance basic core stability for beginners while providing advanced strengthening and increased core muscle recruitment to challenge conditioned athletes.

- 1. Upgrade on previous design:** user can choose between seven levels of resistance which uses a percentage of bodyweight.
- Provides dedicated area for planking off of the floor.
- Rolling glideboard offers option to increase instability for further strengthening.
- Ability to progress or regress exercises by changing body position.
- Includes link to exercise library with additional and advanced exercise options.
- Designed to be bolted to gym floor for designated plank area.

The ELEVATE Pull-up™ utilizes incline bodyweight resistance to assist users in doing a proper pull-up to strengthen the muscles of the upper body. Built on an adjustable incline with seven levels to select from, the ELEVATE Pull-up allows users to lift approximately 30 percent to 60 percent of their own bodyweight.

1. Designed to successfully allow anyone to perform pull-ups using their own bodyweight.
2. Strengthens all the muscles of the upper body.
3. Seven incline levels allow users to progress from pulling as little as 30 percent of their own bodyweight up to 60 percent.
4. Enhanced functional performance of daily activities and increased athleticism.
5. Exercises can be progressed or regressed to accommodate all fitness levels.

The ELEVATE Press™ introduces a totally new way to do a shoulder press by placing users in an inverted position. Seven adjustable levels allow users to select a percentage of their own bodyweight as resistance. The Press also allows users to perform a decline push-up.

1. Designed for intuitive use and success in performing press up.
2. Strengthens all the muscles of the upper body.
3. Seven incline levels allow users to progress from pressing as little as 15 percent of their own bodyweight up to 50 percent.
4. Allows for plyometric movements.
5. Ability to progress a decline push-up.
6. Inverted position stabilizes shoulder girdle and reduces spinal compression and shoulder impingement.
